Agency Priority:

Expected Results

The goals of the Freight Mobility Strategic Investment Board are as follows: Optimize freight mobility by reducing barriers or Washington's freight corridors. Take a leadership role of informing the public regarding freight mobility transportation needs and issues. The performance measures are as follows: Number of barriers to freight movement mitigated by closure of "at grade" crossings. Number of barriers to freight movement mitigated by removal of chokepoints. Number of public outreach contacts. Actual 2001-03 performance was closure of 15 "at grade" crossing, one barrier mitigated by removal of chokepoints and 140 public outreach contacts. The ability of the Freight Mobility Strategic Investment Board to meet the goals of grade separation and removal of barriers is directly linked to funding, not funding projects diminishes the Board's ability to remove barriers.
